PROFILE

I am a creative, career-changing Java Full Stack Developer with a background in building programs to meet community needs. My experiences, both domestic and abroad, contributes to my goal-oriented approach to project development. My tenacious curiosity and self- starter attitude contributes to success. My recent coding gap was due to a focus on case management at the county level to enhance my community development experience.

SKILLS

• ReactJs	• Business Intelligence
• JavaScript	• Complex Problem Solving
• PostrgesSQL	• Presentation Development
• TypeScript	• Professional Communication
• R Studios	• Procedural Compliance
• Python	• Interpersonal Interviewing
• Microsoft Suites	• Intermediate Spanish

EXPERIENCE

Human Services Specialist, County of Solano, CA — Jun 2023-Jun 2024

 Conducted client interviews to obtain and verify PINs for public assistance services. Analyzed government applications to determine eligibility. Managed caseloads and generated reports for ongoing cases.

Associate Developer, Revature; Remote — Jun 2022-Oct 2022

Built a complete Java web API using MVC and Front Controller design patterns. Generated PostgresSQL AWS RDS with DBeaver interface. Created dynamic React web applications with mobile lexibility and map functions. Organized Agile Scrum, DevOps services, and REST frameworks.

Human Services Specialist, County of San Diego, CA — Jan 2020-Jun 2022

 Conducted client interviews to obtain and verify PINs for public assistance services. Analyzed government applications to determine eligibility. Managed caseloads and generated reports for ongoing cases.

UI/UX Designer, Imagine The Stage (ITS) — Sep 2019-Jun 2020

 Designed frontend web frameworks and communicated with stakeholders to implement product visual and functional requirements. Verified program logic using testing and debugging best practices.

EDUCATION

University of California, Davis — International Relations, B.S. 2012
